FitRestFuel

Schwinn 230 vs 290 buying worksheet

Measure the space, check rider fit and compare the same delivery service.

1 Choose the workouts you will actually do

Sessions per week / minutes per session _____

One 290 feature I would use enough to pay extra for _____

2 Check the rider, room and delivery route

Clear room width x length _____ Units _____

Narrowest doorway _____ Tightest turn / landing _____

Stair flights _____ Delivery and assembly plan _____

☐ All riders within weight limit ☐ Seat reach and mounting access checked

☐ Exact manual layout fits ☐ Outlet, door swing and access route checked

3 Decide whether to pay for an app

☐ No paid app App / compatible device _____

Trial ends / next billing date _____

4 Compare costs side by side

Use matching delivery and assembly services. Enter current quotes, not old sale prices.

Prices checked on _____ Currency _____

Cost item	230	290
Bike price	$	$
Delivery and assembly	$	$
Tax and extra access charges	$	$
Accessories and device	$	$
Next 12 months of subscriptions	$	$
TOTAL planned first-year outlay	$	$

Extra cost for the 290 with equivalent service _____

☐ Return fees and collection requirements confirmed for my delivery option

Manual minimums: 230 75 W x 112 L in; 290 52 W x 90 L in, with 24 in at access side and rear.
Verify the exact model manual and your own mounting, transfer and delivery needs. This sheet does not guarantee fit. Electricity and future repairs are not included in the planned first-year total.
